Washington, DC 20510

House Appropriations Committee Chair Rodney Frelinghuysen
House Appropriations Committee Ranking Member Nita Lowey
H-305, The Capitol
Washington, DC 20515

Dear Chairmen and Ranking Members:

The undersigned organizations, representing America's agriculture, nutrition, conservation, rural development, finance, forestry, energy, trade, local government, plant/animal health, agricultural sciences and veterinary medicine, labor, outdoor recreation, equipment manufacturing, cooperatives, hunters, anglers and crop insurance sectors, strongly urge you to reject calls for additional cuts to policies within the jurisdiction of the Senate Committee on Agriculture, Nutrition and Forestry or the House Committee on Agriculture.

Almost three years ago, Congress passed a bipartisan farm bill that made a significant contribution to deficit reduction. This bipartisan legislation was estimated to contribute \$23 billion to deficit reduction over 10 years at the time of passage. This was the first time a farm bill voluntarily reduced spending before Congress began considering the bill. It was the only reauthorization bill in that Congress that voluntarily offered savings. These difficult cuts resulted from hard choices made to reform and reduce the farm safety net, conservation initiatives, and nutrition assistance.

In fact, the Congressional Budget Office's (CBO) January 2017 baseline estimates that the 2014 Farm Bill has cost far less than projected. According to CBO, nutrition and crop insurance alone will spend nearly \$100 billion less, while mandatory federal spending outside the Agriculture Committees' jurisdiction has risen over the same time period.

We have all begun preparing for the 2018 Farm Bill and recognize that passing a bill with additional funding reductions would be extremely difficult, if not impossible. Therefore, as the Senate and House Agriculture Committees begin preparing for the 2018 Farm Bill, it is imperative that the committees not be hamstrung by further budget or appropriations cuts to any farm bill program. Instead, we strongly encourage you to recognize the substantial savings already achieved, which far exceed expectations, and to provide the committees the opportunity to complete their work through regular order, without arbitrary budget cuts or caps. With the agriculture and rural economy struggling, households across the country struggling to meet their basic needs for nutrition, and farm income down 46 percent from only three years ago, it would be perilous to hinder development and passage of the 2018 Farm Bill with further cuts.

During consideration of the 2014 Farm Bill, the Agriculture Committees made the difficult choices necessary to deliver a bipartisan bill. Budget cuts made in that bill should be recognized as Agriculture's contribution to deficit reduction. We know the committees will once again face challenging budgetary and policy choices in the development of the 2018 Farm Bill. That is why it is so important you ensure the committee process for the farm bill can proceed with some budget flexibility.

Thank you for your consideration.

Sincerely,

Academy of Nutrition and Dietetics
