2015-2016 HIGHLIGHTS

Society for Nutrition Education and Behavior
2016 Annual Conference

2015-2016 Highlights

Membership

- 1,130 June 2016 vs. 1,065 June 2015
- Local & University Ambassador Program
- Member Satisfaction Survey

JNEB

- Increase issues from 6 to 10
- Impact factor: 2.253 up from 1.773
- 1st Position Paper: Sustainability
- Expanded Aims/Scope

2015-2016 Highlights

Annual Conference

- Record # of abstracts
- Abstract submission tool
- Record attendance
- Healthy Meetings = 83% achievement

2015-2016 Highlights

Advisory Committee on Public Policy

- 9 Legislative Actions
- Health Promotion Policy Award

Other Accomplishments

- New website
- Membership and Fund Raising Outcomes
- Nutrition Educator Competencies
 - ▣ Communications plan under development
 - ▣ Showcased at NNEdPro and IFMeD international conferences

Education is about increasing knowledge, changing attitudes and values and nurturing skills to improve decisions and behaviours

NUTRITION EDUCATORS HAVE TO BE COMPETENT Check out the new Society for Nutrition Education and Behaviour Nutrition educator competencies for promoting healthy individuals, communities and food systems at www.sneb.org

NUTRITION EDUCATOR COMPETENCIES FOR PROMOTING HEALTHY INDIVIDUALS, COMMUNITIES AND FOOD SYSTEMS

S. Piscopo¹, M. Olfert², on behalf of SNEB
University of North Carolina¹, West Virginia University, USA

BACKGROUND:

In recent years, there has been an increased demand and need for nutrition education. Publicly, nationally and locally, there may be no international standard definition of nutrition education; the need for qualified nutrition educators who can promote healthy individuals, communities, and food systems is widely acknowledged. The Society for Nutrition Education and Behavior (SNEB) has been a leader in developing effective nutrition education and nutrition education as far back as 1957 when the first competencies were issued by the Society.

OBJECTIVE:

Recognizing the need for updated nutrition education competencies that reflect current research and professional opportunities, a decision was made in 2013 to develop foundational competencies for nutrition educators around the world.

METHODS:

A SNEB Task Force was established in 2011 to update the last set forward. Over the course of two years, the Task Force developed a set of competencies focusing on ten theme areas. These competencies articulate the foundational knowledge and performance skills nutrition educators need for the development, implementation and evaluation of effective nutrition education. The ten theme areas, and the more specific competencies under each of these, provide a practice guide for a well-rounded nutrition educator.

CONCLUSIONS:

The study's adherence to decline that consumption is as nuts, red amount and further progress sample as this

Introduction

Recent evidence adherence to MDI may delay impact to be protective and typical of this diet

Few data are elderly population investigated adher association with c

Materials and methods

A cross-sectional study out on 162 elderly people followed as outpatients Nutritional Research Centre

The adherence to MDI was a score calculated based on visual analogue scales (VAS) for each food group

RESULTS

The adherence to MDI was significantly lower in the elderly population compared to the younger population

CONCLUSIONS

The adherence to MDI was significantly lower in the elderly population compared to the younger population

ACKNOWLEDGMENTS

This work was supported by the National Institutes of Health (NIH) through the National Center for Human Genome Research (NCHGR) and the National Center for Human Genome Research (NCHGR) under grant number 1R01HG007301-01A1.

APPROPRIATE EDUCATIONAL AND CARE SYSTEMS

1. Describe the basic structure and function of the digestive system and the related effects of food choices and food availability.

2. Explain the biological, genetic, and environmental factors that influence the absorption, utilization and storage of nutrients.

3. Explain the biological, genetic, and environmental factors that influence the absorption, utilization and storage of nutrients.

4. Explain the biological, genetic, and environmental factors that influence the absorption, utilization and storage of nutrients.

5. Explain the biological, genetic, and environmental factors that influence the absorption, utilization and storage of nutrients.

6. Explain the biological, genetic, and environmental factors that influence the absorption, utilization and storage of nutrients.

7. Explain the biological, genetic, and environmental factors that influence the absorption, utilization and storage of nutrients.

8. Explain the biological, genetic, and environmental factors that influence the absorption, utilization and storage of nutrients.

9. Explain the biological, genetic, and environmental factors that influence the absorption, utilization and storage of nutrients.

10. Explain the biological, genetic, and environmental factors that influence the absorption, utilization and storage of nutrients.

COMMUNITY AND PUBLIC HEALTH

1. Describe the role of government agencies in nutrition education and behavior change.

2. Describe the role of government agencies in nutrition education and behavior change.

3. Describe the role of government agencies in nutrition education and behavior change.

4. Describe the role of government agencies in nutrition education and behavior change.

5. Describe the role of government agencies in nutrition education and behavior change.

6. Describe the role of government agencies in nutrition education and behavior change.

7. Describe the role of government agencies in nutrition education and behavior change.

8. Describe the role of government agencies in nutrition education and behavior change.

9. Describe the role of government agencies in nutrition education and behavior change.

10. Describe the role of government agencies in nutrition education and behavior change.

PERSONAL AND COMMUNITY

1. Describe the role of government agencies in nutrition education and behavior change.

2. Describe the role of government agencies in nutrition education and behavior change.

3. Describe the role of government agencies in nutrition education and behavior change.

4. Describe the role of government agencies in nutrition education and behavior change.

5. Describe the role of government agencies in nutrition education and behavior change.

6. Describe the role of government agencies in nutrition education and behavior change.

7. Describe the role of government agencies in nutrition education and behavior change.

8. Describe the role of government agencies in nutrition education and behavior change.

9. Describe the role of government agencies in nutrition education and behavior change.

10. Describe the role of government agencies in nutrition education and behavior change.

PROFESSIONAL AND COMMUNITY

1. Describe the role of government agencies in nutrition education and behavior change.

2. Describe the role of government agencies in nutrition education and behavior change.

3. Describe the role of government agencies in nutrition education and behavior change.

4. Describe the role of government agencies in nutrition education and behavior change.

5. Describe the role of government agencies in nutrition education and behavior change.

6. Describe the role of government agencies in nutrition education and behavior change.

7. Describe the role of government agencies in nutrition education and behavior change.

8. Describe the role of government agencies in nutrition education and behavior change.

9. Describe the role of government agencies in nutrition education and behavior change.

10. Describe the role of government agencies in nutrition education and behavior change.

2015-2016 Highlights

Key Collaborations:

- ❑ FCS Alliance: the Next Generation
- ❑ Nutrition Education Labeling Consortium
- ❑ USDA, Center for Nutrition Policy Promotion
MyPlate Partnership
- ❑ Dietary Guidelines Alliance
- ❑ Korean Society of Community Nutrition

Also initiated MOIs and discussions with:

- ❑ International Federation of Home Economics
- ❑ Japanese Society of Nutrition and Dietetics
- ❑ International Foundation of the Mediterranean Diet
- ❑ Mediterranean Roundtable
