

**Online Master's Degree**

# **Sustainable and Resilient Food Systems**

University of Wisconsin  
**Stevens Point**

[uwsp.edu/buildabettercommunity](http://uwsp.edu/buildabettercommunity)

*Build sustainable*  
**LOCAL FOOD  
ECONOMIES**

**Be the local expert.**

Lead your community in developing a resilient food system, plan and evaluate effective programs, and successfully secure grant funding.

Our students have a **variety of professional and educational backgrounds** including teaching, social services, retail sales, nutrition, economics, communication and many others. Yet they all share a passion for building community relationships and structures that support healthy eating. Visit our student profiles online to see where these skills could take you.

**Graduates go on to careers as**

- Community Benefits Coordinator at Center for Community Health Advancement at Marshfield Clinic Health System
- Training and Outreach Specialist at Wisconsin School Garden Initiative
- Executive Director at Central Rivers Farmshed

**Flexible**

- Fall and spring start dates
- 8- and 16-week courses
- Set your own pace: 1, 2 or 3 courses per term

**Convenient**

- Log in anytime, from anywhere

**Affordable**

- Less than \$600 per credit
