

USDA ARS Human Nutrition Research Roundup

The [USDA ARS Human Nutrition Research Roundup](#) is a collection of nutrition-related research from the USDA Agricultural Research Service (ARS), located on the USDA National Agricultural Library, Food and Nutrition Information Center (FNIC) website.

What nutrition topics are being researched by ARS scientists?

Current projects cover a variety of nutrition topics, including:

- Agriculture and health
- Child nutrition
- Dietary guidance
- Food composition
- Gut health and microbiome
- Healthy aging
- Immunity and nutrition
- Metabolism
- Obesity prevention
- Phytochemicals

Search the [project list by program](#) for a full listing of current and past ARS human nutrition research.

Where is ARS human nutrition research conducted?

ARS has six human nutrition research centers, which help to define the role of food and its components in optimizing health throughout the life cycle for all Americans by conducting high national priority research.

- Arkansas Children's Nutrition Center
- Beltsville Human Nutrition Research Center
- Children's Nutrition Research Center
- Grand Forks Human Nutrition Research Center
- Jean Mayer Human Nutrition Research Center on Aging
- Western Human Nutrition Research Center

Coming Soon!

Get ARS nutrition research updates from an online publication feed on the FNIC website.

Check back later this year to explore this new feature.
