

SNEB 2021: Raising Reliability & Resilience

Let's Talk About Diversity: Uplifting Student Voices

Today you heard 4 student panelists discuss different problems and propose solutions for strengthening Diversity, Equity, and Inclusion (DEI) in the training of future nutrition educators and nutrition education & behavior researchers:

Panelist	Problem	Proposed Solutions
Lucille	Lack of Opportunities	Paid opportunities and pipeline programs for Black, Indigenous, and People of Color (BIPOC)
Maribel	Tokenism from Program/Department	Meaningful training that makes everyone a stakeholder in supporting DEI initiatives
Habiba	Loneliness of Being One of a Few	Facilitating connections for BIPOC students via mentorship, clubs, organizations, and safe spaces
Ana	Imbalanced Power Dynamics	A student Bill of Rights that sets the standard for how students should be treated by faculty & staff

For the breakout session:

1. Join one of the Remo tables labeled with the Problem you'd like to discuss (e.g., "Opportunities," "Power Dynamics")
2. At your table, assign someone to be a Prompt Reader and someone to be a Note Taker (using Remo's White Board feature)
3. Have the Prompt Reader read the following prompts and discuss:
 - What are your initial thoughts about the panelist's proposed solution? Did you think of a similar or different solution yourself?
 - What barriers or challenges might you face implementing the panelist's solution, or your solution, at your institution?
 - What are some ways to overcome these barriers? What resources (people, programs, etc.) do you have at your institution which may help?
 - What is your first step after the SNEB Conference?
4. The panelists and Student Division volunteers will be jumping in to listen and help guide discussion.
5. Also, a helper will be screenshotting the notes from your table's White Board to share at the breakout.
